

## Qualifications approved for inclusion in the Registers

All primary veterinary degrees are listed against Members' names in the Register. They are not reproduced here. The list below sets out the additional postnominals which may be displayed against Members' names in the Register. The list is not comprehensive; other qualifications may be added from time to time.

Please note that the RCVS only validates registerable primary veterinary degrees, and certain postgraduate qualifications (Certificates, Diplomas and Fellowships) which it has itself awarded. **The listing of other qualifications in the Register against an individual's name does not imply RCVS's endorsement of those qualifications or of the organisations awarding them.**

To be included on the list, qualifications must meet the following criteria:

- a) The qualification must be awarded by an organisation with recognised national authority to do so – either a university, other nationally accredited awarding body, a Chartered body with authority to award qualifications, or other nationally recognised, well-established learned society.
- b) The qualifications should represent a significant period of study/achievement in terms of size and level, equivalent to at least 60 credits (600 notional hours of learning) in the UK credit framework, and be at least at level 6/Bachelor level in the UK Higher Education Qualifications framework.
- c) Qualifications that are accepted for RCVS Advanced Practitioner or RCVS Specialist status will automatically be added to the list.
- d) Under section 3 below, the qualification should relate to achievement in a veterinary or related field of evidence-based science, medicine or agriculture and be awarded by a university, or a Chartered body or other nationally recognised, well established learned society.
- e) Honorary postnominals should be for eminence and significant contributions to a field related to veterinary science or a related field of evidence-based science, medicine or agriculture or other closely related fields/professions, and be awarded by a university, or a Chartered body or another nationally recognised, well established learned society; or be a national honour conferred by the Crown.
- f) Qualifications under section 5 below (non-veterinary related) must be full degrees awarded by a university, at least at level 6/Bachelor level, and be of relevance to the individual holder's area of work. For BAs and MAs, the subject of study should be indicated.

*This policy was agreed by RCVS Council at its meeting in November 2014.*

## **1. Postgraduate veterinary qualifications at Masters level in the UK framework of higher education qualifications**

The following qualifications are accepted for listing in the RCVS Register on the basis that they are recognised as part of the accreditation process for Members on the list of RCVS Advanced Practitioners. Other qualifications may be approved as part of that process and will be added to this list from time to time.
